

# Write a Game Review!

Game reviews are helpful ways of understanding games before you play them. Follow the steps to write your own! You can base it on a game you know or a game you made up yourself!

## **Introduce the videogame you want to review by explaining the basics:**

What is the title, the genre (action, puzzle, strategy...), or platform (console, PC, mobile...)

---

---

## **What happens in the game? Tell the reader about the storyline!**

Remember don't give too much away, your readers might want to play the game too!

---

---

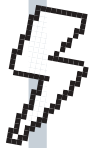

---

---

---

---

---

## **Did you enjoy the game? Tell us why you did (or didn't)!**

Try to be specific! If you get stuck, think about elements like story, art style or characters. Remember you can make these up if you are inventing the game!

---

---

---

---

---

---

---

## **Would you recommend the game to other people?**

Do you think other people should play this game too, tell them why (or why not)!

---

---

---
